I am seeking an opportunity to contribute my experience and expertise in a dynamic and challenging environment, where I can drive impactful results and support organizational growth. With a strong work ethic and professional experience, I am confident in my ability to add value and deliver high-quality performance for your organization.

Work Experience

Jtsi Technologies Pvt. Ltd

January 2025 - Present

Jr. Software Engineer

Infopark,Kochi

🌐 <https://jtsiindia.com/>

- Working in a product-based ERP development environment focusing on enterprise-level applications.
- Contributed to the enhancement of existing modules by identifying bugs, troubleshooting issues, and implementing stable solutions.
- Developed and integrated new features to meet dynamic client requirements and improve overall system performance.
- Proactively analyzed user-reported issues and internal QA feedback to determine root causes and apply long-term fixes.
- Utilized **Angular** for front-end development, **.NET** for back-end services, and **SQL Server** for data management and reporting.

Santhisoft Technologies

August 2023 - August 2024

Jr.Software Developer

Thodupuzha

🌐 <http://santhisoft.com/>

- Developed and maintained responsive websites for various organizations, ensuring optimal performance, scalability, and user experience.
- Designed and developed cross-platform mobile applications using the Ionic framework for various clients and organizations.
- Collaborated closely with clients to gather requirements, design features, and deliver custom solutions that aligned with their business goals.
- Utilized modern web technologies, frameworks, and best practices to build high-quality front-end and back-end components.
- Implemented SEO strategies, optimized code, and improved website loading times for enhanced search engine rankings and user engagement.
